More God. Less Scroll.

Before is an iPhone app that puts Scripture before the scroll. It locks the apps that pull you in until you've read, memorized, or prayed, then gives the time back on your terms.

THE PROBLEM

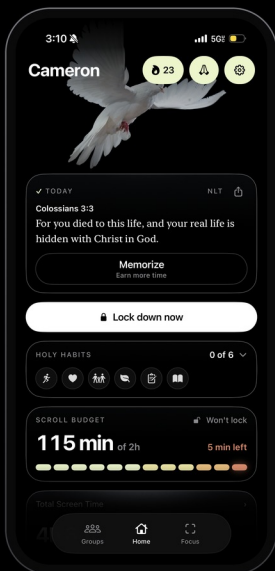

Something gets your phone first.

The feed is built to win the first minutes of the day. Most of us don't plan to lose the hours. They just go.

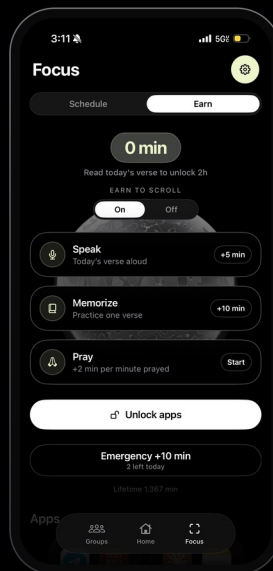

HOW IT WORKS

Read. Memorize. Pray. Earn.

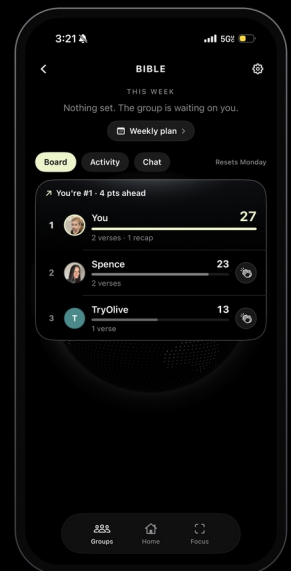

Pick the apps that steal your attention and Before locks them with Screen Time. Finish today's verse flow or pray to earn minutes, then spend them when you choose.
